

Ali Armani

Junior Front-End Developer

armani.ali@proton.me
+98 935 369 2588
<https://github.com/Ali-Armani>
<https://linkedin.com/in/aliarmani>

Front-end developer in training with hands-on experience building responsive, visually polished websites using HTML, CSS, and JavaScript. Brings two years of professional experience in customer-facing retail roles, with a track record of solution-oriented teamwork and initiatives that improved sales performance. Currently completing a Bachelor's degree in English Language Teaching while building a parallel career in web development, with strong written and spoken English and working knowledge of German.

PROJECTS

LuxuryDrive — Luxury Car Configurator Website

github.com/Ali-Armani · [live on GitHub Pages](#)

- Designed and built a marketing website targeted at high-end car buyers, using color palette, spacing, and imagery to convey a premium brand feel
- Implemented a custom, animated navigation bar and an attention-grabbing hero section to drive visitor engagement
- Built fully responsive layouts tested across desktop and mobile breakpoints

Personal Portfolio Website

<https://ali-armani.github.io>

- Developed and maintain a personal portfolio site showcasing ongoing front-end projects
- Practicing modern HTML/CSS fundamentals as a foundation for JavaScript and React development

PROFESSIONAL EXPERIENCE

Sales Associate & Cashier

~2 years

- Collaborated closely within a team-based retail environment, consistently prioritizing solution-focused problem solving over assigning blame
- Actively participated in team meetings, contributing ideas that led to measurable increases in sales and improved staff satisfaction
- Delivered reliable, customer-facing service requiring adaptability, communication, and accountability
